

# pascagoula refinery

## we work to enable human progress

our vision is to be the global energy company most admired for its people, partnership and performance

### community investments

We contribute to local communities by making strategic social investments in four core areas; health, education, economic development and environment.

#### Health & Social Well-being

- 5-2-1-0 Let's Go Gulf Coast Childhood Obesity Initiative
- United Way of Jackson, George & Greene Counties
- American Heart Association
- American Red Cross

#### Education

- Early Childhood Education, Excel By 5
- Science, Technology, Engineering, Art & Math programs
- Project Lead The Way
- FabLab Jackson County and mobile units

#### Economic and Workforce Development

- Mississippi Gulf Coast Community College
- MSU Engineering on the Coast
- Central Gulf Industrial Alliance
- Downtown Pascagoula Revitalization
- Mississippi Economic Council
- Local Chambers of Commerce
- Jackson County Economic Development Foundation

#### Environment

- Friends of the Grand Bay NERR
- Pascagoula River Audubon Center
- The Nature Conservancy
- Land Trust for the Mississippi Coastal Plain

### your pascagoula refinery

- Connects the world by supplying jet fuel to 20+ international airports in the U.S.
- Supplies 100+ local gas stations
- Makes air travel possible by fueling about 100 smaller airports in the southeast
- Makes up more than 90% of the refining capacity in MS
- Supplies transportation fuels to El Salvador, Guatemala, Honduras & Panama

### we're proud of our industry

- The oil and gas industry has a unique ability to meet the world's growing needs
- Refinery operations enable us to develop products we use on a daily basis, in addition to providing for our energy needs, manufacturing and much more
- The oil and gas industry supports productivity in everything from agriculture to healthcare

## we develop the energy that improves lives and powers the world forward

Our Pascagoula refinery manufactures fuels and other products sold under the Chevron®, Texaco® and Caltex® brands. The refinery can process approximately 369,000 barrels per day of crude oil to produce gasoline, jet fuel and diesel fuel. Our other products include aviation gasoline, petroleum coke, sulfur and fuel oils such as Liquefied Petroleum Gas (LPG).

Since beginning operation in 1963, the refinery has grown to be the corporation's largest U.S. refinery and one of the top petroleum refineries in the United States. Chevron is one of the world's leading integrated energy companies. We believe affordable, reliable and ever-cleaner energy is essential to achieving a more prosperous and sustainable world.

For more information about Chevron's commitment to the environment and the surrounding community, visit [pascagoula.chevron.com](http://pascagoula.chevron.com).
